# PHLEBOTOMY 3-DAY COURSE

## INTRODUCTION

The Phlebotomy Short Course is designed to equip participants with theoretical knowledge and skills to perform safe and effective venepuncture on adults and to familiarise participants with all aspects of Personal Protective Equipment (PPE). Learn technique using winged needle," also known as a "butterfly needle" or "scalp vein set," to access veins that are challenging, such as in elderly patients or those with fragile or difficult-to-puncture veins. The flexibility of the tubing and the wings makes them easier to manoeuvre and stabilise compared to traditional straight needles.

Earn  
CPE  
Points!

## LEARNING OBJECTIVES:

Upon successful completion of this course, the participant will be able to:

- State the basic principles in infection control and safe patient handling
- Demonstrate the steps in donning and removing Personal Protective Equipment (PPE)
- Perform the correct technique in venepuncture and collection of blood specimens, access veins that are challenging
- Describe the complications related to venepuncture and its management
- Demonstrate safe handling of specimen and documentation

## ASSESSMENT:

The assessment strategy has been designed to address the integration of theory and practice across the course, in line with the course structure. On the other hand, evidence of competence may be gathered by a few methods including:

1. **Direct observation**
2. **Competency assessment**
3. **Stimulated Performance and or Case Scenarios discussions**

Course participants would deem to have met the competency of venepuncture upon completion of the course and pass the competency tests.

## WHO SHOULD ATTEND?

- Individuals who wish to learn the correct technique in venepuncture and collection of blood specimens to be employed in the healthcare industry
- Organisations which need to train their staff in this job role

**DURATION:** 03 Days | 9am - 5.30pm

## FEE:

Course Fee: **S\$750\*** *[Email us to find out more about our Promotion Fee]*

Application Fee: **S\$50\*** (waived)

\*(before GST)

## ENTRY REQUIREMENT:

- All participants are required to go for a blood test for Hepatitis and HIV before course commencement
- Participants who are Hepatitis A, B, C, and HIV tested positive would not be able to attend the course

## CERTIFICATION:

Participants will be issued with a Certificate of Completion upon meeting the required **100% course attendance and competency assessment** and **30 on the job training** at a clinic. Participants can find their choice of clinic for the OJT or use one of our partners at an additional cost.
